Biological Services

## Summary of Qualifications

Busby Biological Services, Inc. (BBS) is a San Diego-based environmental consulting firm that provides high quality, objective natural resource expertise and innovative solutions to complex environmental issues for public- and private-sector clients who require assistance complying with the California Environmental Quality Act, National Environmental Policy Act, and other federal, state, and local environmental laws and regulations.

Established in 2009, BBS is a certified small, woman-owned, disadvantaged business enterprise. We, along with our close network of highly skilled, specialized, and respected independent biologists and environmental professionals, have decades of cumulative experience providing environmental consulting services throughout southern California and the western U.S. for a growing list of clients, including government agencies, utility companies, military installations, private landowners and developers, and environmental consulting firms as well as local, state, and federal regulatory agencies and non-profit organizations.

We are able to cover all aspects of your project, including:

- |                                       |                                  |
|---------------------------------------|----------------------------------|
| Project Planning                      | Habitat Management               |
| General Biological Services           | Conservation Biology             |
| Specialized Natural Resource Services | Environmental Permitting         |
| Environmental Compliance Services     | Agency Coordination/Consultation |

We have the necessary permits, authorizations, and skills to provide specialized natural resource surveys in the fields of:

- |            |             |                         |
|------------|-------------|-------------------------|
| Botany     | Ornithology | Herpetology             |
| Entomology | Mammalogy   | Wetland/Aquatic Ecology |

We can help you meet your project objectives and comply with applicable environmental laws, regulations, and other project requirements while respecting the ecological context of the site. We are happy to provide assistance on small tasks, but we can also manage entire tasks or projects, as appropriate. In addition, BBS has extensive proposal preparation and interview experience so we can not only assist with project implementation but also help win the work!

Our high work standards, sound ethics, and attention to detail have earned us an outstanding reputation with our clients as well as regulatory agency personnel. We offer personal attention, responsiveness, flexibility, and efficiency that leads to cost savings for your projects, while providing high quality services and deliverables you would expect from a larger firm.

The next page provides a list of the services we provide, our regulatory knowledge, and our current list of WBE/SBE/DBE certifications.
